

Funmilayo Fagbemi

FRONT-END DEVELOPER

Junior Frontend Developer with hands-on experience building responsive web applications using JavaScript, React, and Python. Skilled in API integration, UI development, and problem-solving through clean, structured code.

Recently completed the SheCodes Software Development Bootcamp, gaining practical experience in modern frontend development, version control, and deployment workflows.

A background in the fashion business, combined with technical training, provides a strong understanding of user experience, digital products, and customer-focused design.

Location

London

Education

April 2025-May 2026

SheCodes Software Development Diploma

May 2005-Sept 2008

Bachelor Honours Fashion Business

London Metropolitan University

Skills

- Front End Development
- React.js
- Responsive Development
- API Integration
- Python (Programming Languages)

Tools

VS Code

Git Hub, NPM

Experience

TECHINICAL SKILL

Languages: JavaScript, Python

Frontend Development: React.js, Responsive Design, Bootstrap, API Integration

Core Concepts: Object-Oriented Programming, Data Structures, Debugging, Clean Code

Tools & Workflow: Git, GitHub, VS Code, Netlify.

Design Tools: Figma

Additional Skills: AI-assisted development, Problem Solving, UX Awareness

PROJECT EXPERIENCE

Frontend Web Applications

- Built responsive web applications using JavaScript and React.js
- Developed reusable UI components and responsive layouts
- Integrated third-party APIs to display real-time data
- Deployed and maintained projects using GitHub workflows

Python Development Projects

- Developed Python applications using data structures and OOP prin

SELECTED PROJECTS

Weather Forecast Application | JavaScript, API Integration

- Built an interactive weather application displaying live API data
- Implemented dynamic updates based on user input

AI Quote Generator | JavaScript, AI Integration

- Developed a web app generating AI-based content
- Focused on asynchronous data handling and clean UI design

React Task Manager | React.js

- Created a component-based productivity application
- Implemented reusable components and state management

TECHNICAL TRAINING

SheCodes Bootcamp – Software Development Programme

Completed project-based training in:

- JavaScript, React.js, Python
- Responsive Design & API Integration
- Git, GitHub & Deployment
- Data Structures, OOP & AI Concepts

CORE STRENGTHS

Problem Solving | Adaptability | Attention to Detail | Team Collaboration | Communication | Continuous Learning
